Location Science

Volume 1 Contents 1993

NUMBER 1

Richard L. Church, John R. Current and H. A. Eiselt	1	Editorial
George O. Wesolowsky	5	The Weber problem: history and perspectives
David A. Schilling, Vaidyanathan Jayaraman and Reza Barkhi	25	A review of covering problems in facility location
Roberto Diéguez Galvao	57	The use of Lagrangean Relaxation in the solution of uncapacitated facility location problems
Avijit Ghosh and Farid Harche	81	Location-allocation models in the private sector: progress, problems, and prospects
	107	Abstracts in location analysis

NUMBER 2

Francois V. Louveaux	127	*Invited Review* - Stochastic location analysis
M. John Hodgson and Susan Neuman	155	A GIS approach to eliminating source C aggregation error in *p*-median models
Rex K. Kincaid and Lynne G. Yellin	171	The discrete *p*-dispersion-sum problem: results on trees and graphs
H. A. Eiselt, Michael Gendreau and Gilbert Laporte	187	Maximizing pedestrian flow in shopping center layout

NUMBER 3

Erhan Erkut	199	Inequality measures for location problems
Rex K. Kincaid and Rosemary T. Berger	219	The damper placement problem on space truss structures

In Chan Choi and Sohail S. Chaudhry	235	The *p*-median problem with maximum distance constraints: a direct approach
	245	Abstracts in location analysis
NUMBER 4		
Dilip Chhajed, Richard L. Francis and Timothy J. Lowe	263	*Invited Review* - Contributions of operations research to location analysis
Margaret L. Brandeau and Samuel S. Chiu	289	Sequential location and allocation: worst case performance and statistical estimation
Daniel Serra de la Figuera and Charles Revelle	299	The *pq*-median problem: location and districting of hierarchical facilities
	331	Abstracts in location analysis
	I	Volume 1 (1993), Title Page, Contents, Author and Keyword Indexes

Author Index

Barkhi, R. 25
Berger, R. T. 219
Brandeau, M. L. 289
Chaudhry, S. S. 235
Chhajed, D. 263
Chiu, S. S. 289
Choi, I. C. 235
Church, R. L. 1
Current, J. R. 1
Eiselt, H. A. 1, 187
Erkut, E. 199
Francis, R. L. 263
Galvao, R. D. 57
Gendreau, M. 187
Ghosh, A. 81
Harche, F. 81
Hodgson, M. J. 155
Jayaraman, V. 25
Kincaid, R. K. 171, 219
Laporte, G. 187
Louveaux, F. V. 127
Lowe, T. J. 263
Neuman, S. 155
Revelle, C. 299
Schilling, D. A. 25
Serra de la Figuera, D. 299
Wesolowsky, G. O. 5
Yellin, L. G. 171

Keyword Index

Aggregation error 155
Algorithms 81
Application 219
Applications 263

Consumer behavior 81
Covering 25
Covering models 57

Dynamic models 57

Empirical comparison 199
Equity objectives 199

Facility 5
Facility location 25, 127, 235, 289

GIS 155

Heuristics 171, 219
Hierarchical location models 299

Inequality measures 199
Integer programming 219, 299

Lagrangian relaxation 57, 235
Location 5, 81, 171, 299
Location theory 219
Locational equilibrium 81

Market share 81
Mathematical modeling 25
Minisum 5

Networks 81
Networks/graphs 171

Optimization 25

p-median model 155
p-median problem 235
Probabilistic programming 127

Seriation problem 187
Shopping centers 187
Shopping malls 187
Solution methods 263
Spatial competition 81
Stochastic programming 127
Store location 187
Subgradient method 235
Survey 263

Uncapacitated facility location problems 57

Weber problem 5
